# MATER-BI FOR FOODSERVICE

BIODEGRADABLE AND COMPOSTABLE  
SOLUTIONS FOR THE FOOD INDUSTRY

## MATER-BI FOR FOODSERVICE

MATER-BI is a family of fully **biodegradable and compostable** bioplastics which use renewable resources to provide a solution with low environmental impact and to solve specific environmental problems in various sectors, such as foodservice, packaging and the separate collection of organic waste.

With the latest developments to certain product grades, today the MATER-BI Foodservice line is complete.

Plates, glasses, cutlery, bowls, finger food mini cups, drinking straws, ice cream cups and spoons, lids for cups: a sustainable proposal for an environment friendly policy in various commercial and contract catering contexts.

All products are suitable for food contact and are certified compostable to the UNI EN 13432 standard.
